A QUESTION OF COLOR

Some persons have a mistaken notion regarding the color of tea. Color has nothing to do with tea quality, either in the leaves or in the brew.

But color is important when it comes to selecting a tea by the label. There's Yellow, for instance. Lipton's finest tea—the finest of the world's finest—is Lipton's Yellow Label brand.

The reason LIPTON'S Tea has the largest sale in the world is not because Lipton grows more tea than other tea planters—nor because of the color of the label—but because Lipton grows better tea.

Ask your grocer for LIPTON'S Yellow Label Tea. If he does not tell you, send us his name and address and we will mail you a FREE sample and give you the name of a grocer who can supply you. Address: Thomas J. Lipton, Inc., Hoboken, N. J.

For the first time in several weeks the Emeralds will not play their Friday night game at the Valley street armory. The basketball attraction will be at the Y. M. C. A. where the Connecticut company of Hartford will line up against the undefeated girls' team of the American Thread company. Many of Hartford's best players have come to this city to defeat the A. T. A special meeting of Colchester Chamber of Commerce was held at Otis store Wednesday evening. Frederick G. Brown and Myron R. Abell were appointed a committee to appear in New Haven Thursday afternoon with the Middletown, Portland, East Hampton, and Willimantic Chambers of Commerce to confer with the officials of the New Haven Railroad company to protest against taking off the mid-day trains on the main line, giving only two trains a day out of Colchester.

The new schedule, which goes into effect Sunday, has been published and the train in the morning and in the late afternoon is all the road is to give this town. The committee appointed will also call on the office of the public utilities commission to ask for a hearing on the taking off the train service here, if the railroad company insists in taking off the trains. A letter has been received by a firm that are talking of locating here in the Elgart factory, which has been idle for some time. With the prospects bright for the new factory locating here, employing 200 hands and the present factory employing nearly 200 more and the other industries that use the railroad it does not seem unlikely that the reason for the borough being isolated on account of the statement that the road does not pay. It has been figured out and if figures do not lie, it does pay!

Spain reports a shortage of undeveloped films. American films have the best reputation there.

Kidney and bladder troubles are not limited to men. Housework, or work in office or factory causes women to suffer from weak, overworked or diseased kidneys. The symptoms are: puffiness under the eyes, yellow skin, constant tired feeling, lack of ambition, nervous condition, backache, rheumatic pains, sore muscles, stiff joints.

Foley Kidney Pills
get right at the cause of suffering and misery, regulate the kidneys and bladder and restore the diseased organs to sound and healthy condition.

Mrs. Wm. Fischer, 200 Woodbourne Ave., Louisville, Ky., writes: "I am just getting along. I am feeling better than I have for some time. You should have seen me before I started. I was yellow as a green egg and my eyes and skin are all cleared up. My kidneys do not bother me any more. It will help some other poor soul who is suffering you may use my name wherever your medicine is advertised."

TODAY

Yesterday's gone—it was only a dream;
Of the past there is naught but remembrance,
Tomorrow's a vision thrown on Hope's screen,
A will-o'-the-wisp, a mere semblance.

This moment my past and my future I form;
I may make them whatever I choose
By the deeds and the acts that I now perform,
By the words and the thoughts that I use.

So I fear not the future nor mourn o'er the past
For I do all I'm able today,
Living each present moment as though 'twere my last;
Perhaps it is! Who knows? Who shall say?

Wednesday Charles Palmer drove up to the creamery in one of his automobiles and stopped to make a purchase of butter. It being a cold day, and not intending to make a long stay, he left the engine running. After getting his butter and enjoying a short chat with the superintendent he went to the door intending to take his departure. Mr. automobile was in sight. A careful survey of the nearby country revealed nothing. After a search over across East Main street in Jewett City's back yard the wanderer's machine was discovered, stuck against a tree. The manufacturer's name was of the right sort, for the car was up and went away as though no accident had happened.

Considerable interest is being taken in the performance of Mr. Earle's fine crops of white Leghorns on William McNeil's farm on East Main street. They are at present well and the houses at the farm are accomplishing an early-laying record which rivals the parent stock.
